PCN Type: Barcode Format or Content

Effectivity

Expected 1st Device Shipment Date: 4/15/2004  
Earliest Year/Work Week of Changed Product: 0416  
(Note: Package marking may differ from this format)

Product ID (Description):

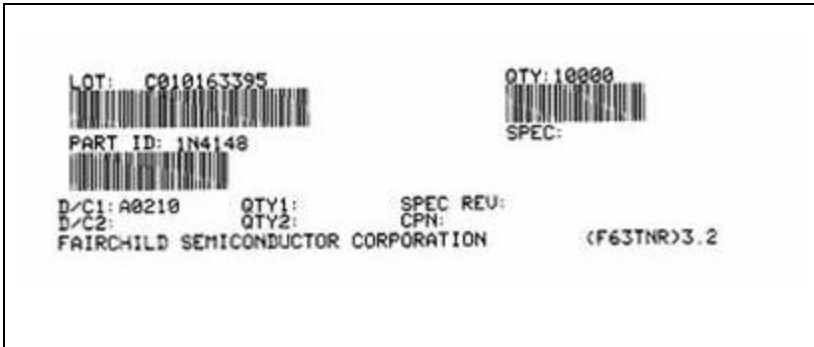

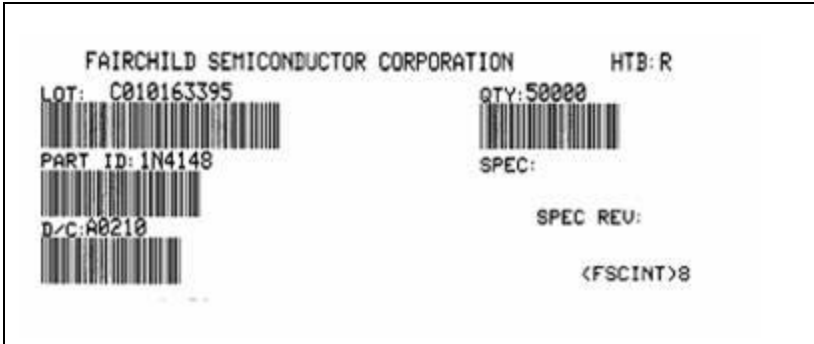

All DO-35, DO-41 and LL-34 packages in Tape and Reel and Ammo Packing options, built and tested in Fairchild's subcontractor shall be affected by this change.

Description of Change:

As part of Fairchild Semiconductor's effort to improve lot tracking system and reduction of manual operations, Barcode Labelling is implemented for tape and reel and ammo packing options. The labels will now reflect the barcode in addition to the existing human readable characters, which has been in use since these packages started. It is expected that current shipments will have either the human readable ( for old inventory ) label only or the new label with

both barcode and human readable characters, until inventory still using the former is depleted.

The labels will be in the form specified below for FSCINT and F63TNR respectively:
