

48-QFPH-1414 Tray Packing Data

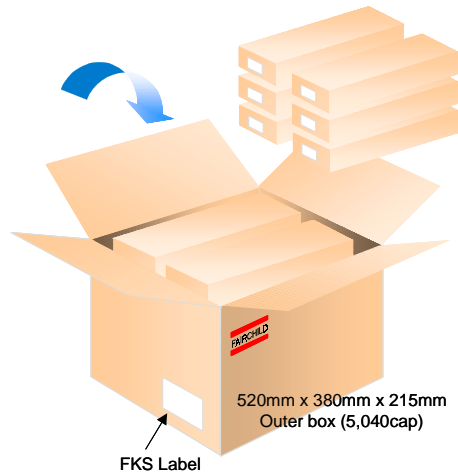

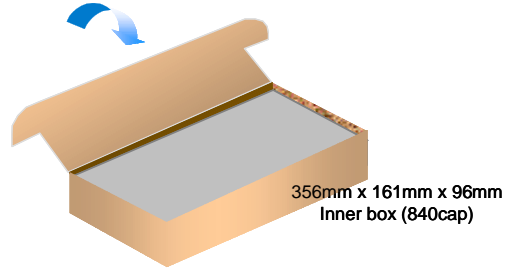

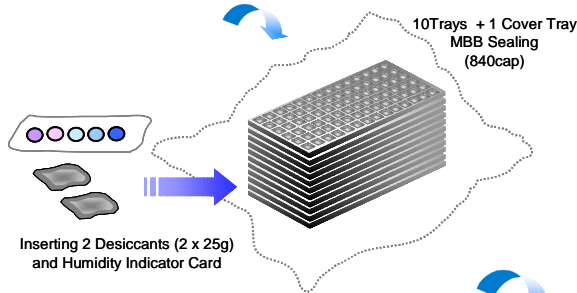

48-QFPH-1414 Packing Configuration: Figure 1.0

Packaging Description:
 48-QFPH-1414 parts are shipped in a tray. The tray is made of recycled HIPS plastic treated with an anti-static agent. One tray contains 84 parts. These trays are placed in a stack with 10 layers, including one dummy layer, inside a middle box made of recycled corrugated paper. One middle box contains 840 parts. MBB sealing are inserted in the box to eliminate moisture. Six of these middle boxes are placed inside a labeled large box. The maximum capacity of a large box is 5,040 pieces. The actual quantity depends on the total number of boxes listed on a purchase order
