

SPM32-AA Package Information

SPM32-AA Tube Packing Configuration: Figure 1.0

Packaging Description:

SPM32-AA parts are shipped normally in tube. The tube is made of PVC plastic treated with anti-static agent. These tubes in standard option are placed inside a dissipative plastic bubble sheet, barcode labeled, and placed inside a box made of recyclable corrugated paper. One box contains six tubes maximum (see fig. 1.0). And one or several of these boxes are placed inside a labeled shipping box which comes in different sizes depending on the number of parts shipped. The other option comes in bulk as described in the Packaging Information table. The units in this option are placed inside a small box laid with anti-static bubble sheet. These smaller boxes are individually labeled and placed inside a larger box (see fig. 2.0). These larger boxes then will be placed finally inside a labeled shipping box which still comes in different sizes depending on the number of units shipped.
